Chemical Immobilization Technician 16-Hour Certification Course

Course Description

The AACIS Chemical Immobilization Technician certification class is for law enforcement and animal care and control professionals that may need to use anesthetic drugs for the purpose of capturing animals that cannot otherwise be captured by traditional methods.

Course Format

This training program is taught in a blended format; 8 hours of the class is completed online, and 8 hours of the class is completed with an instructor.

Online Training

Students are encouraged to begin the online training portion of the class as soon as possible. AACIS will provide the students with the website URL and password to access the training material. Students will be required to read on various topics and submit written responses to the instructor. This portion of the class must be completed before the student attends the face-to-face training portion of the class.

ONLINE TRAINING - 8 HOURS	
Training Topic	Hours
Introduction to Chemical Immobilization	1.0
Chemical Immobilization Equipment	1.0
Chemical Immobilization Drugs	1.0
